

## Fill-Air® Flow

On-Demand Inflatable  
Void-Fill Packaging System

Accessible  
Technology for  
Shipping From  
Anywhere

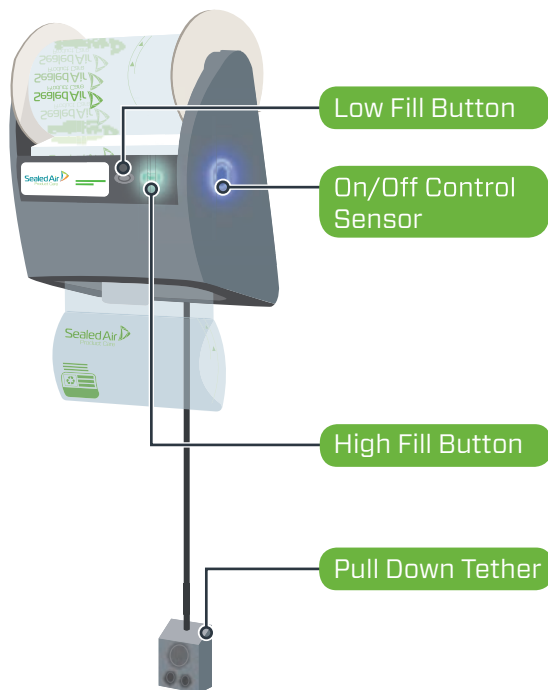

## 4 FEATURE SYSTEM OPERATION

**ON/OFF CONTROL SENSOR:** Swipe hand over sensor repeatedly for amount of bags needed. (1 swipe = 1 bag; 2 swipes = 2 bags).

**100 BAG BATCH FEATURE:** Hold hand over sensor for 3 seconds—system counts and inflates 100 bags.

**FILL AMOUNT BUTTON:** Touch for high or low from bag to bag inflation.

**TETHER AUTO REPLENISHMENT:** Produces up to 3 feet of bags when extended into position.

## A Tailored Solution For Businesses of All Sizes

When your business requires moving a wide range of SKUs out the door fast; overpacking, inefficient workspaces and redundant practices can derail productivity quickly. Solve these problems by selecting packaging technology that fits your space and budget, streamlining your process to be more agile. Sealed Air® has a portfolio of tailored solutions designed with your operations in mind, creating a precise and consistent packaging workflow that reduces the time and energy to get your product to your customer as quickly as they demand.
