

Optimize your packaging process with
POWER OF AIR

NewAir I.B.® Flex can inflate solutions to protect an infinite number of products

NEWAIR I.B.[®] FLEX

The **NewAir IB[®] Flex** unlocks a full portfolio of on-demand inflatable solutions for all types of applications while providing superior cushioning protection.

Reduces material excess up to **50% or more.**

With maximum inflation, the weight of the product is equally dispersed, providing superior damage protection that reduces the amount of excess material used to ensure the product is safely delivered.

Speeds up to **90 linear feet per minute.**

Faster inflation of packing material makes lines more productive, employees more efficient and gets more products out the door on time.

Durable parts last **2-4x longer.**

Delays in production can slow down productivity. Limit the potential for throughput loss with the NewAir I.B.[®] Flex, which can reduce downtime costs by up to 50%.

Ready to use in just **10 minutes.**

The integrated design of the New Air IB Flex is delivered assembled to your operation.

It is instantly ready to help improve your packaging process.
